REPAY
Realtime Electronic Payments

+ Sage Tech Partner **Plus**

Modern B2B Payments, Simplified
in Sage Intacct

REPAY's integration with Sage Intacct streamlines your entire payment cycle, from vendor payables to customer receivables.

Simplify AP with automated vendor payments, accelerate AR with ClickToPay, and offset costs with surcharging support, all without leaving Sage Intacct.

Reduce manual work   **Improve efficiency**   **Prevent fraud**

Faster, Easier AP

The REPAY Payables Platform and team of Payments Specialists handle vendor payments from start to finish, ensuring every vendor is paid securely and on time.

- Full-service vendor enrollment and management

- Optimized payments featuring, virtual card, ACH and check

- Representative Assisted Payments via web portal, IVR, fax

Accelerate AR

Collecting payments shouldn't slow you or your cash flow down. REPAY empowers AR teams to:

- Send ClickToPay invoices with embedded payment links

- Accept credit cards and ACH directly in Sage Intacct

- Offer customers a fast, convenient way to pay 24/7

ClickToPay with Surcharging

Provide customers a frictionless payment experience while protecting your bottom line.

- Easily generate and send one-click invoice payments
- Enable surcharging to offset processing costs
- Expedite cash flow with faster digital collections

Protect Every Payment

Our payment solutions are PCI-compliant and utilize tokenization and encryption tools to enhance security for inbound and outbound payments. ACH validation, positive pay, and more, eliminate the need for you to manage security yourself.

One Integration. Total Payment Control.

From payables to receivables, REPAY helps you modernize your accounting strategies, all with a single, seamless integration.

Upgrade the experience today!
