

Simple & Secure Vendor Payments for Dealerships

How many checks do you cut each month to vendors?

45% of businesses still make most of their B2B payments via check. [Source: Mastercard Commercial Solutions]

Checks are inefficient, error-prone, expensive, and prime targets of fraud. Digitize the vendor payment process without disrupting current accounting procedures. REPAY integrates seamlessly into the DealerBuilt DMS so you don't need a separate platform to pay vendors.

Simplify Vendor Payments

Virtual cards and ACH offer faster and more secure ways to pay the vendors you rely on.

You simply trigger the payment directly from DealerBuilt, and we handle the rest, automating the entire end-to-end process so vendors get paid faster using fewer resources.

Realtime vendor enrollment at payment due date

No implementation, training or maintenance costs

Representative Assisted Payments via web portal, IVR, fax

Payments disbursed within 48 hours regardless of payment type

No payment batch limits or transaction limits

Rebates sent to individual operating accounts

Effortless Implementation

Featuring a ready-built DealerBuilt integration, automating AP payments is hassle-free. After signing the Payment Services Agreement and providing the bank account to fund vendor payments, our implementation engineers guide you through every step.

1. Project Prep
2. Testing
3. Production

Ensure Payment Protection

AP teams are often targets of fraud, however, payment security is expensive and labor-intensive for dealerships to take on themselves.

REPAY's payables platform helps protect dealerships from threats, including ACH fraud, cyberattacks and illegitimate vendors, at no additional cost.
